COMPANY'S VALUES

Cooperation

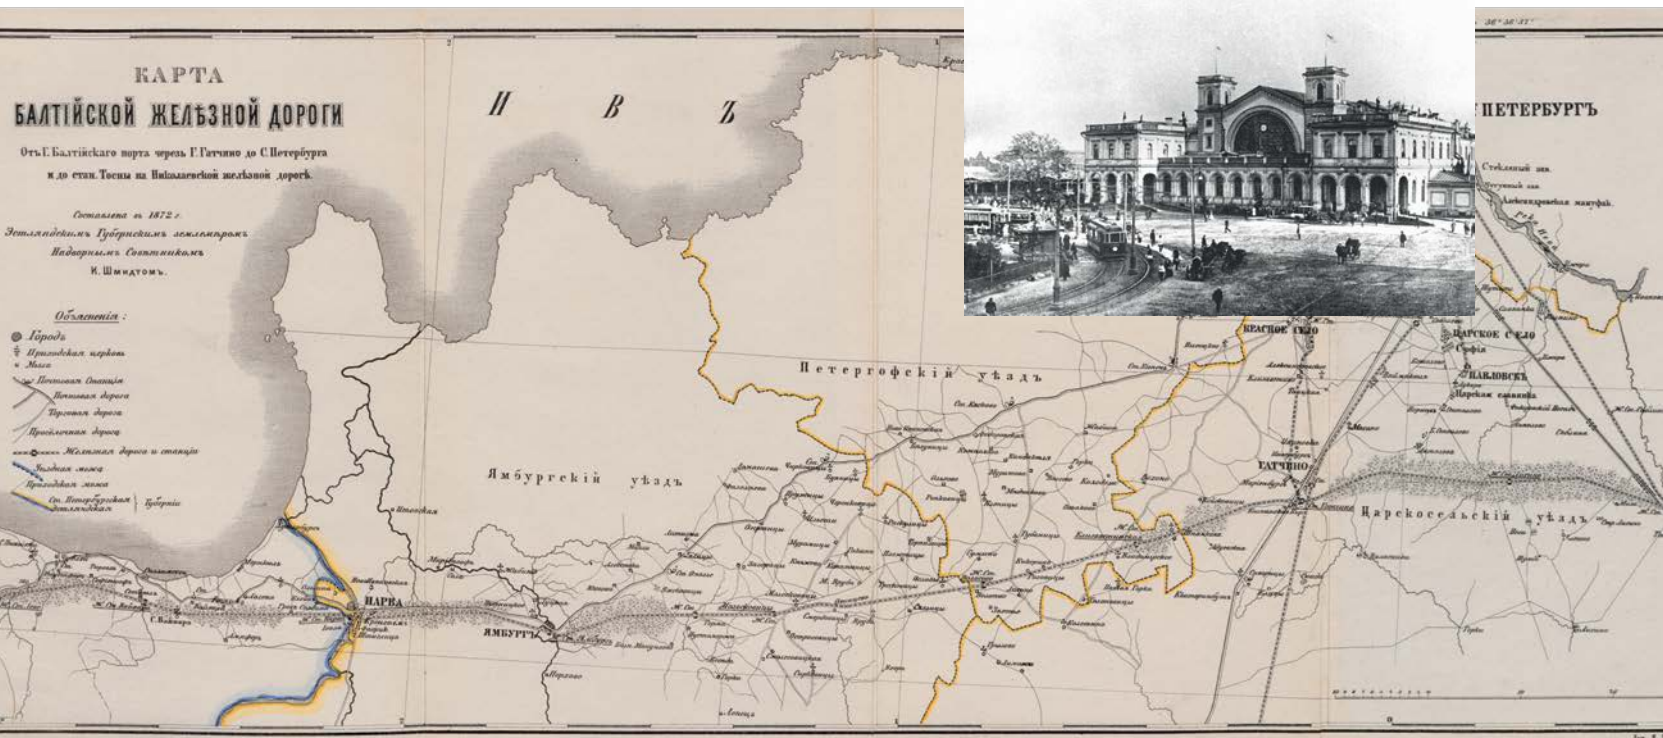

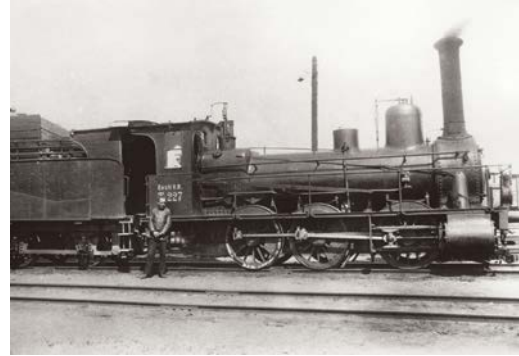

Honesty

Innovation

Professionalism

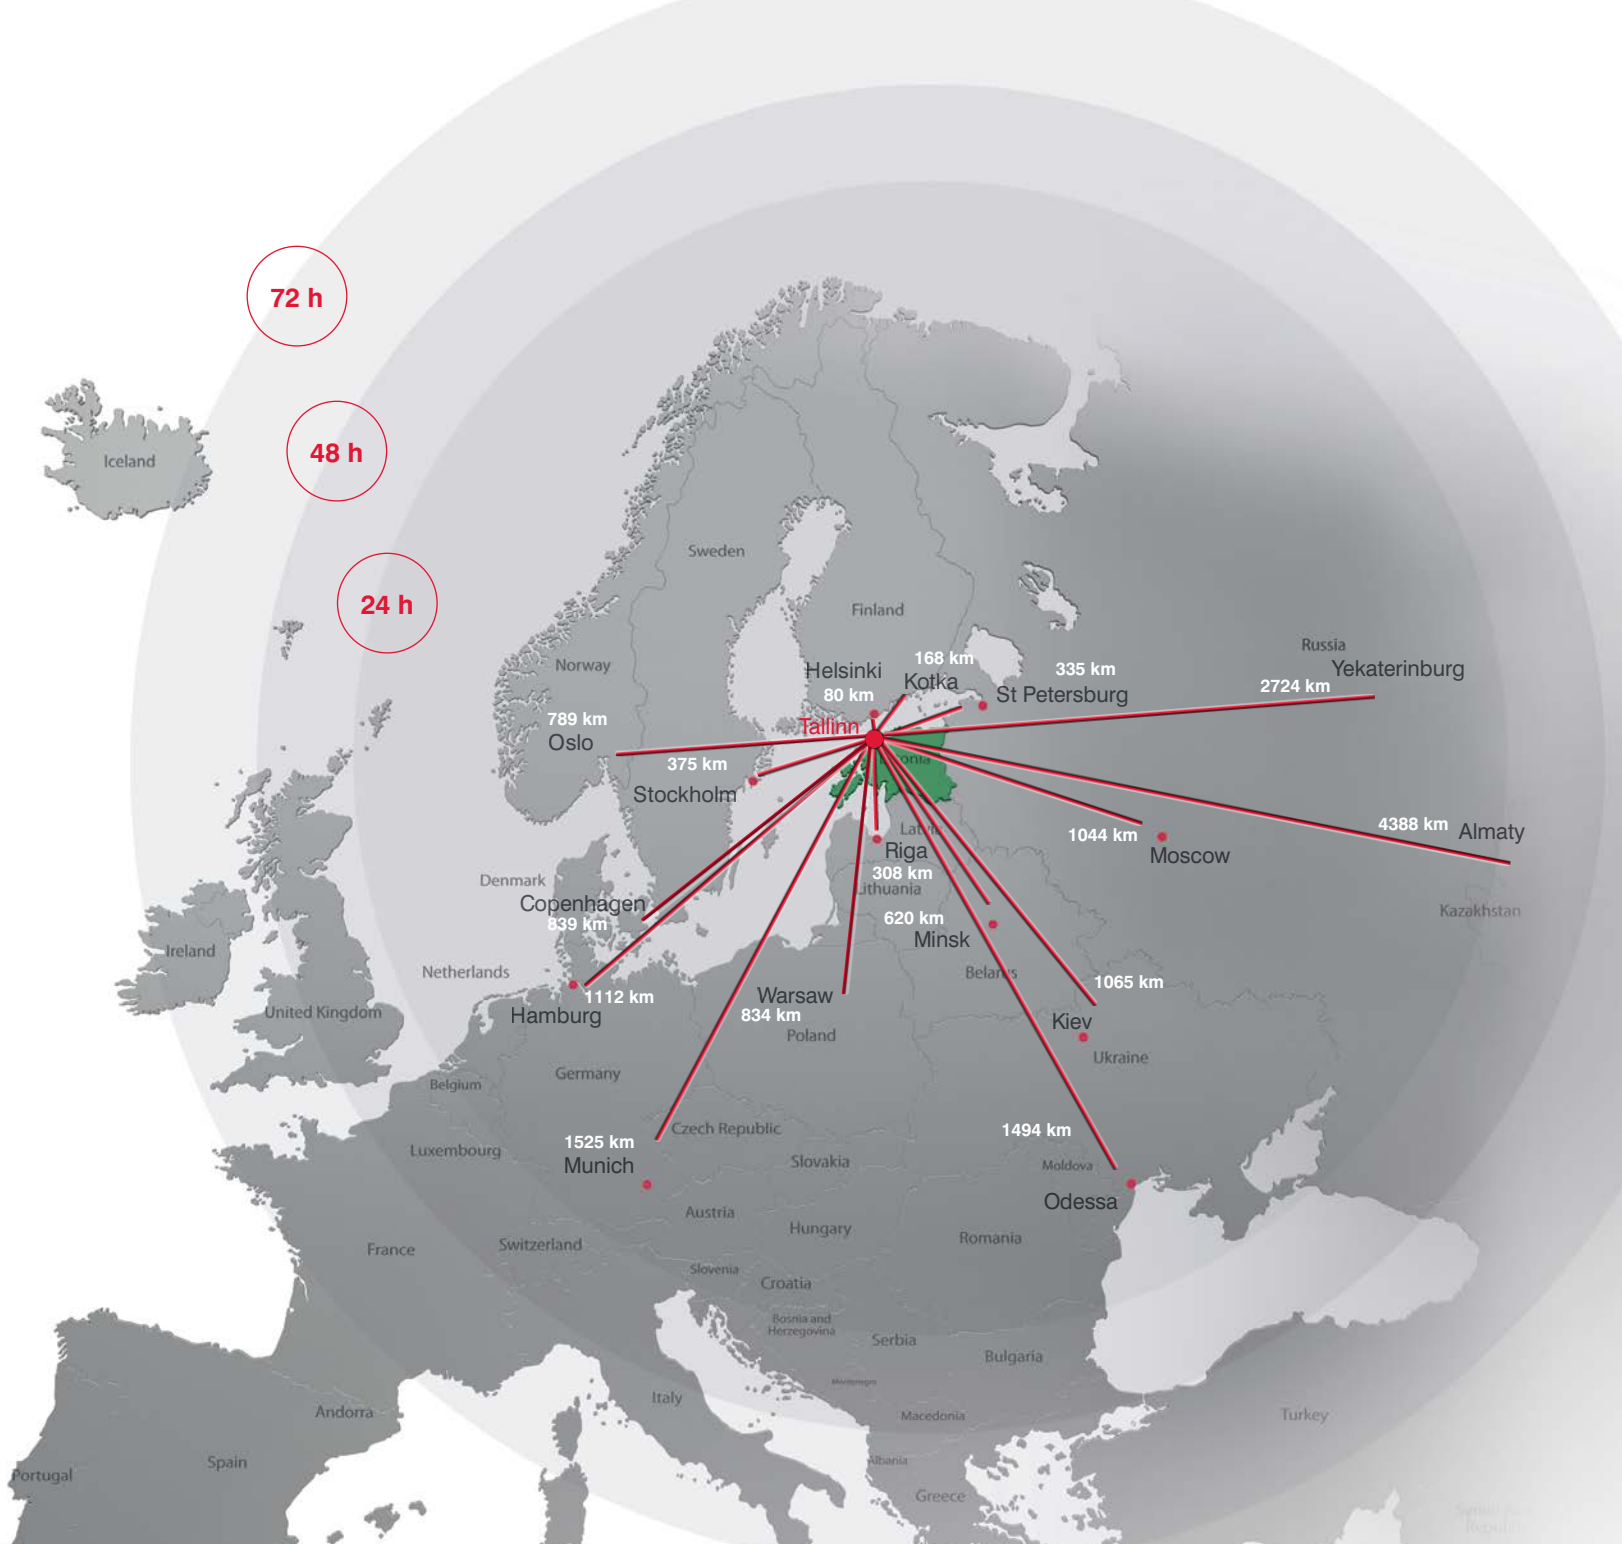

ESTONIA

- Geographical location that enables fast access to all important regional centres
- Liberal economic environment
- Free competition
- No restrictions on foreign capital
- Establishment of a company takes only a few minutes
- Uncomplicated and transparent taxation system
- Corporate income tax 0%
- Conservative budget policy
- Estonia is an EU member-state and its official currency is the Euro

Estonia is a dynamic and flexible country with open economic policies where ancient history and high-technology, Eastern hospitality and Northern innovativeness can be found side by side.

EESTI RAUDTEE

Track gauge	1520/1524 mm
Overall length of railways	1219 km
Including double-track railways	94 km
Number of switches	1190 pcs
Length of electrified railways	132 km
Number of passenger platforms	129 in use
Number of stations	61
Number of border stations	3
Capacity	56 train pairs per 24 hours

BORDER STATIONS

WITH RUSSIA

Narva-Ivangorod • Koidula-Pechory

WITH LATVIA

Valga-Valka

Total capacity within 24 hours 56 train pairs

Both border stations and call stations have 1500 metre station rails, providing good conditions for processing even very heavy and long freight trains.

■ Border station

■ Trains accepted

Valga

5200 tonnes or 57 standard units

Koidula

5200 tonnes or 57 standard units
On special agreement up to 6000 tonnes or 69 units

Narva

5600 tonnes or 57 standard units
On special agreement up to 7000 tonnes or 71 units

*Capacity of the station within 24 hrs.

— 120/80 km/h

FREIGHT TRAFFIC

In 2018, the infrastructure of Estonian Railways Ltd passed through 13.5 million tonnes of cargo, 9.1 million tonnes of which came from transit, 0.28 tonnes from export and 1.35 million tonnes from import. Local freights were made in the volume of 2.8 million tonnes. The volume of container transport was 52 446 TEUs.

In 2018, railway infrastructure capacity was allocated to 134 electric passenger train lines and 113 diesel passenger train lines.

There were 7.66 million travellers carried domestically and 107.1 thousand with the international Tallinn-St. Petersburg-Moscow line.

**PASSANGER
TRAFFIC**

PORTS

Estonian railway connections allow delivering cargo to seven ports, largest of which is the Muuga Harbour belonging to the Port of Tallinn.

Estonian ports:

- are practically ice-free
- include space for new developments.
- are well connected both by railway and highway
- allow handling vessels up to 300 000 DWT
- are sufficient depths of the quaysides for servicing the largest vessels that can enter the Baltic Sea through the Danish Straights

AT GLANCE
